Performance Plus II

With a super flexible microphone boom, reinforced speaker cabinet and the use of stress and scratch resistant materials, the Performance Plus II has been designed to withstand the hardest of call centre environments.

In addition to the lightweight design and all day comfort, the Performance Plus II also allows the user to find the perfect microphone position. You can be confident that it will stay there all day long, no need to constantly align the mic boom.

With dynamic sound quality everyone comes in loud and clear. The noise cancelling microphone picks up the operators voice with precision.
